

COMMUNITY OF HOPE FOUNDATION

LIFE FARM

The first centre for permanent residence, work, therapy, and rehabilitation of adults with autism in Poland.

OUR MISSION

We are building a system of support for persons with autism spectrum disorder, and their families.

ON THE FARM

HOPE BECOMES LIFE

Life Farm created by the Community of Hope Foundation is located in Więckowice, in Zabierzów municipality near Kraków. It is a unique centre, offering permanent residence, work, therapy, and rehabilitation to adults with autism spectrum disorder (ASD).

The project is modelled on proven European solutions.

Since 2005 we have been operating a small, certified organic farm.

The structure of Life Farm comprises four organisational units:

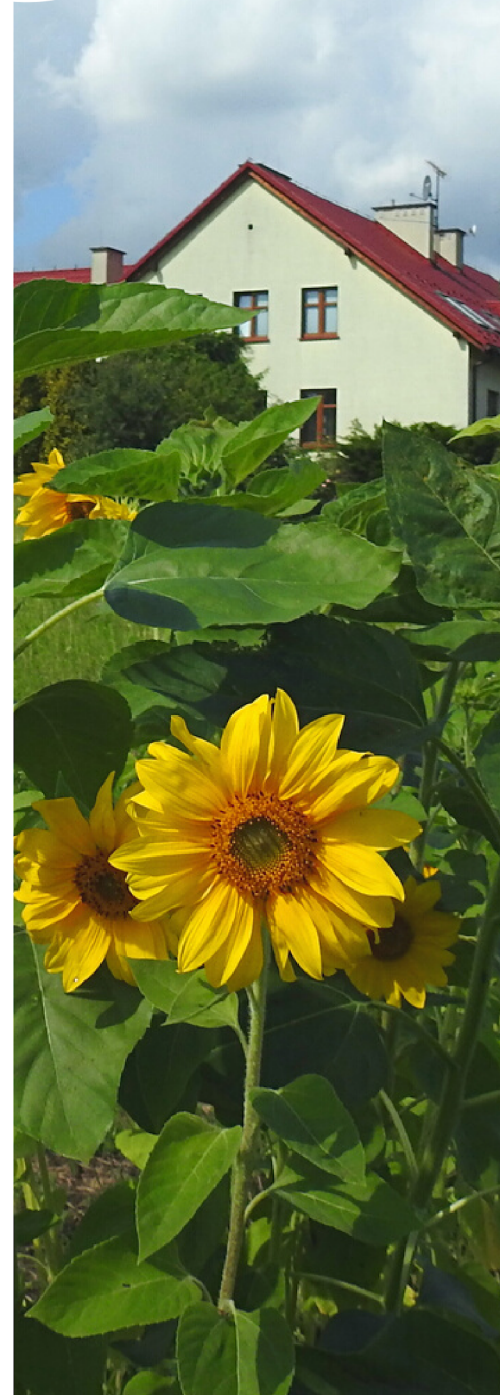

- Małopolska Social Welfare Home "At the Life Farm",
- Day Activity Centre,
- Life Farm Training Centre,
- Organic Farm.

At present, 10 residents are living in the Małopolska Social Welfare Home, and more than 35 persons with ASD attend the Day Activity Centre. Our long-term goal is to offer work and rehabilitation space for over 100 people, both with ASD and with other developmental disorders.

Your support would be most welcome!
